

AQUAPOD

The Modular Form of the Pool

No excavation, no lengthy construction - installation in just 1 day.

Don't build a pool in your garden.

Place AQUAPOD instead.

Designed for modern living, AQUAPOD is a portable and modular premium pool system, factory-built with an integrated equipment room. Its robust steel structure, panoramic window and Thermowood cladding bring aesthetics, comfort and engineering together.

Portable

Easily transported by truck

Factory-Built

Controlled, fast production

Integrated Filtration

Skimmer system

Thermowood Cladding

Exterior facade and deck

Retractable Sun Deck

Opens as needed

Panoramic Glass

Underwater viewing window

Today's pool, tomorrow's living space.

AQUAPOD Standard Specification

Current product configuration

Load-bearing structure

Load-bearing steel profile frame system.

Pool interior

Pool inner surfaces and base: liner over Betopan cement board.

Filtration

Skimmer filtration system with a dedicated filtration room inside the module.

Exterior cladding

Choice of galvanized trapezoidal sheet metal or Thermowood timber cladding.

Upper platform

Thermowood-clad platform and railing above the filtration room.

Lighting

Standard underwater lighting fixtures.

Pool access

Stainless-steel pool ladder.

Modular expansion

Can be expanded with sunbathing and lounge platforms, a sauna, and kitchen/bar modules.

Panoramic Glass

30 mm tempered glass; high-strength panoramic glazing installed within an aluminium frame.

AQUAPOD Price List

Gross module dimensions - VAT is not included in prices

No.	Width (m)	Length (m)	Height	Price (€)
1	2,50	6,50	2,00	6,200
2	2,50	8,50	2,00	7,300
3	2,50	9,50	2,00	7,900
4	2,50	10,50	2,00	8,400
5	2,50	12,00	2,00	9,300
6	3,00	6,50	2,00	6,900
7	3,00	8,50	2,00	8,300
8	3,00	9,50	2,00	8,900
9	3,00	10,50	2,00	9,600
10	3,00	12,00	2,00	10,600
11	4,00	6,50	2,00	8,400
12	4,00	8,00	2,00	9,700
13	4,00	9,00	2,00	10,600
14	4,00	10,50	2,00	11,900
15	4,00	12,00	2,00	13,300

Note:

The filtration room is included in the total gross module length and requires approximately 1.50 m.
The net usable pool length is therefore shorter than the gross module length.

The combined Sauna + Kitchen/Bar configuration is available only for product Nos. 5, 10 and 15.

Commercial Terms

Pricing, transport and payment terms

Included in prices

AQUAPOD production, the stated standard technical scope, loading onto the vehicle at our production facility, and on-site installation labour.

Not included

VAT, transport, and crane unloading/positioning at the delivery site.

Transport

Depending on product dimensions, standard truck transport or permitted/escorted transport may be required. Transport cost is calculated separately according to product dimensions, delivery distance and location.

Crane

Crane unloading and positioning at the delivery site are priced separately. Required crane capacity and site conditions affect the cost.

Production time

Approximately 45 days after order confirmation and advance payment.

Installation time

Standard installation time is 1 day.

Payment

50% advance payment; balance due at factory dispatch / delivery stage.

VAT

VAT is not included in the listed prices.

Why is transport priced separately?

Transport requirements vary according to AQUAPOD dimensions. Standard truck transport, road permits and escort vehicle requirements, together with distance and delivery location, determine the transport cost.
